

# Farm Mapping Software FREE!\*

\* \$20 (incl. GST) fee for Postage & handling Applies

iFarm Mapping is the ideal software package for drawing and editing farm maps and property plans

- Create detailed and accurate farm plans complete with fence lines, arable and non-arable areas, water courses, roads, dams, buildings and all other farm infrastructure.
- Identify land capability classes and map out management zones within individual paddocks.
- Locate and map out points of interest (e.g. soil and plant analysis sites, farm hazards).
- Import, store and retrieve any number of geo-referenced images (e.g. aerial photos, biomass images and yield maps).
- Calculate distances and areas quickly and easily, including paddocks, fence lines, roads etc.
- Import existing digitised maps for quick and easy editing.
- Print accurate scaled maps of you farm and paddocks for planning purposes and use by employees, contractors and farm advisers.

To order your FREE copy of iFarm Mapping simply forward your order, completed questionnaire (see reverse) and \$20 (incl. GST) for postage and handling to eAgribusiness.
